

## Installation of Network and Electronic Health Record iAAP versions

To install the server version of the IAAP application:

1. Install and start mySql (version 5.1) and create an IAAP database.
  - MySql installation instructions and downloads are available from <http://www.mysql.com/>
  - Optional, install MySQL Workbench 5.2
2. Initialize the IAAP mySql database using the supplied script (iaap-1.0-mysql-initialization-script.sql).
3. Java SDK 1.6 is required.
  - Check the Java version by going to a command prompt and executing: `javac -version` (this will check the version of the Java compiler to ensure that the SDK is installed)  
If not running 1.6, Download and Install Java 1.6
  - Java download website  
[https://cds.sun.com/is-bin/INTERSHOP.enfinity/WFS/CDS-CDS\\_SMI-Site/en\\_US/-/USD/ViewProductDetail-Start?ProductRef=java\\_ee\\_sdk-6-oth-JPR@CDS-CDS\\_SMI](https://cds.sun.com/is-bin/INTERSHOP.enfinity/WFS/CDS-CDS_SMI-Site/en_US/-/USD/ViewProductDetail-Start?ProductRef=java_ee_sdk-6-oth-JPR@CDS-CDS_SMI)
  - Make sure the JAVA\_HOME environment variable is set and pointing to the 1.6 SDK installation folder.
4. Install tomcat 6.0.
  - Tomcat installation instructions and downloads are available from <http://tomcat.apache.org/>
5. Configure a JNDI DataSource in Tomcat by adding a resource declaration for your resource to your context .xml file.  
(See README\_datasource-config.txt for an example)
  - The location of the context.xml file is  
YOUR\_TOMCAT\_INSTALL\_DIR/conf/context.xml
6. Copy the mySql JDBC driver (mysql-connector-java-5.1.10-bin.jar) into tomcat's lib directory.
  - The location of the tomcat lib directory is  
YOUR\_TOMCAT\_INSTALL\_DIR/lib
7. Copy the iaap.war file into tomcat's webapps directory.
  - If you are replacing a previous iAAP version or reinstalling, you should delete the YOUR\_TOMCAT\_INSTALL\_DIR/webapp/iaap directory.
  - The location of the tomcat webapp directory is  
YOUR\_TOMCAT\_INSTALL\_DIR/webapp
8. Start tomcat.
  - The application has a single pre-configured.

username = admin  
password = bronchiole

9. Login and reset the password immediately.
